PROFILE SUMMARY

Data Analytics graduate with experience supporting business operations through data analysis, business reporting, documentation, and process improvement. Built SQL, Python, Excel, and Power BI solutions that improved reporting accuracy, reduced data preparation effort by 60%, and enabled data-driven business decisions. Strong analytical, communication, stakeholder collaboration, and problem-solving skills with exposure to Agile projects and business requirement analysis.

TECHNICAL SKILLS

Analytics: Advanced Excel, SQL, Python (Pandas, NumPy), Power BI, Tableau, Dashboard Development

Business Analysis: Requirements Gathering, Business Reporting, Process Improvement, KPI Reporting, Documentation, EDA, ETL

Enterprise Tools: MS Office, Power Query, Power Automate, SharePoint, Teams, Visio, Git, GitHub, Jupyter Notebook, VS Code

EXPERIENCE

Business Analytics Intern

Aug – Oct 2025

BharatSkillz (Startup)

Mumbai, India

- Built SQL and Python workflows supporting business reporting for 10K+ records, reducing manual effort by 60% while improving reporting accuracy.
- Delivered Power BI dashboards tracking 15+ operational KPIs, enabling managers to monitor performance trends and support data-driven decision making.

Technical Intern

Jun – Jul 2025

GET Tutorials

Mumbai, India

- Analysed operational data from 500+ chatbot interactions to identify business trends, document findings, and recommend process improvements.
- Developed Power BI dashboards and business reports supporting campaign monitoring and stakeholder communication.

Data Analytics Virtual Intern

May 2025

Deloitte

Remote

- Supported end-to-end business analytics by performing data cleaning, reporting, dashboard development, documentation, and executive-ready presentations.

PROJECTS

Banking Analytics Dashboard | SQL, Power BI, DAX, Excel

2025

- Built SQL and Power BI dashboards analysing 50K+ banking records to support KPI reporting, business monitoring, and executive decision making.
- Developed DAX measures and interactive reports enabling faster reporting and executive decision making.

Financial Operations Analytics | Python, Excel, Statsmodels, Prophet

2026 – Ongoing

- Built Python-based reporting workflows to analyse financial performance, forecast trends, automate reporting tasks, and support operational decision making.

Healthcare Readmission Prediction | Python, Pandas, Scikit-learn

2026

- Built an end-to-end analytics pipeline on 100K+ patient records involving data cleaning, feature engineering, predictive modelling, and stakeholder-ready dashboards under the guidance of a Cedars-Sinai Bioinformatics Scientist.

EDUCATION

St. Francis Institute of Technology (SFIT), Mumbai

2026

B.Tech in Electronics & Telecommunication Engineering | CGPA: 6.7

HSC – Nirmala Memorial Foundation College, Mumbai | 58%

2022

SSC – St. Lawrence High School, Mumbai | 75.40%

2020
